

OUR MISSION

Education Through Music–Los Angeles’ mission is to provide and promote the integration of music into the curricula of disadvantaged schools in order to enhance students’ academic performance, and creative and general development.

- Founded in 2006 as an independent 501(c)3 non-profit based on the ETM® model established in NYC in 1991.
- Began serving 800 children and has grown to serve approximately 17,500 students.
- Program includes weekly, yearlong music instruction.
- Disciplines taught include violin, guitar, recorder, cello, chorus, band, ukulele, and general music.

OUR OBJECTIVES

ETM-LA’s ultimate goal is to ensure that every child has access to a complete and comprehensive standards-based music education. We form partnerships with low-income elementary and middle schools and create individualized plans with the following objectives:

- High-quality, sequential and yearlong music instruction for every student.
- Ongoing mentorship and professional development for music and classroom teachers.
- Engagement of parents and educators in understanding how music education is essential to a child’s academic growth and development.
- Ongoing assessment and evaluation.

A BRIEF HISTORY

Founding Executive Director Victoria Lanier - a professional violinist and music educator - worked for ETM in New York as a Program Coordinator and Teaching Artist, contributing to ETM’s curriculum. Upon moving to LA and encountering the great need for comprehensive in-school music programs and recurring requests from schools and principals, Ms. Lanier founded ETM-LA to bring the ETM® model and its benefits to Los Angeles communities.

OUR MISSION

Education Through Music-Los Angeles partners with inner-city schools to provide music as a core subject for all children, and utilizes music education as a catalyst to improve academic achievement, motivation for school, and self-confidence.

OUR IMPACT

41 Partner Schools (2019-20)
17,500 Students Receiving Music Ed
100+ Volunteers
10,000+ Supporters

THE BENEFITS OF MUSIC EDUCATION

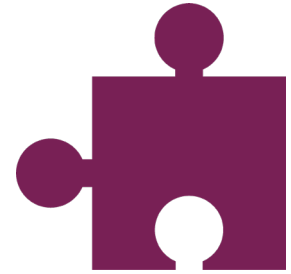

**19.3% increase
in English
Language Arts**

**9.6% increase
in Math**

**Reasoning,
Writing,
Reading, Math**

**Respect,
Self-Discipline,
Development**

- Within the first four years of incorporating ETM-LA music programs into the curriculum, standardized test scores reflected an average increase of **19.3%** more students achieving at or above proficient **in English Language Arts** and **9.6% in Math**.
- Research shows that learning music increases children's **reading, writing, mathematical,** and **reasoning skills**.
- Music education helps develop **self-discipline, respect,** and **understanding of others**.
