

Paper Plate Tambourine

Activity	Create a Tambourine using common household items. Put on your favorite song and play along!
Goal	

Materials	<ul style="list-style-type: none">● 2 Paper Plates● Glue● Hole Punch● String or yarn● Crayons or Markers● Jingle Bells (or find anything that makes a jingl-y sound, like two paper clips connected together, unused keys on a keychain, coins... Etc.)
------------------	--

Step 1

Decorate the back side of both paper plates with crayons or markers.

Step 2

Line up your paper plates, and use a hole punch to create 8 evenly spaced holes around the perimeter of your plates.

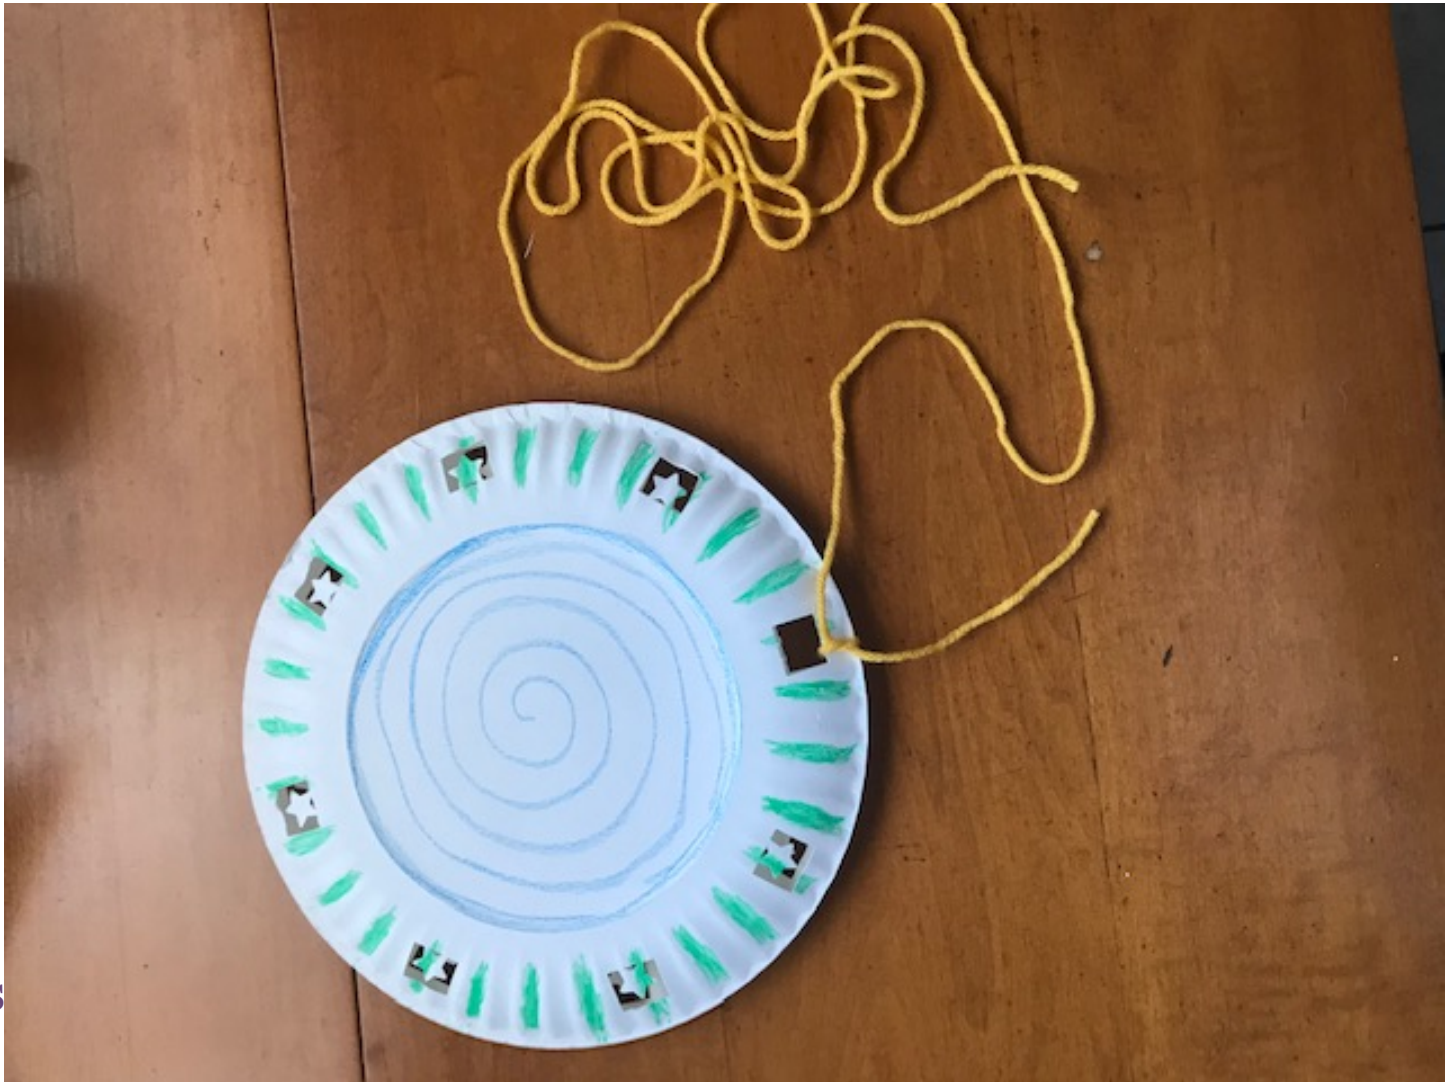

Step 3

Carefully glue both plates together. Make sure the curved side of each plate is facing inward and the holes you punched line up. Leave a small section open, to add the jingle bells or jingling sounding item once the plates have dried.

Step 4

Once the glue has dried, take colorful string and weave it in and out of the holes of your tambourine to make an interesting pattern, and secure the plates together so your jingle bells/ jingling items do not fall out.

5

Step 5

Once you have woven the string, tie it off and cut off any extra pieces.

Put on your favorite song and play along!
